

## RBAC Lab Questionnaire

You are being asked to complete this questionnaire because you have just finished the RBAC lab. The purpose of this survey is to help us understand how effectively this lab has enhanced your learning in computer security. The survey is anonymous. Your responses are not related in any way to the grade you will receive on the lab. Your participation in this survey is greatly appreciated.

---

**Learning objective of this lab:** *The learning objectives of this lab are for students (1) to apply the capability and Role-Based Access Control (RBAC) concepts to enhance system security, (2) to gain a first-hand experience on designing and implementing a secure system, and (3) to apply the principles of computer security in building a real system.*

---

0. Your gender

- Male                       Female

1. What is your level of familiarity with Unix?

- No Experience       Know some commands       Have application-level development experience  
 Have kernel-level development experience

2. My preparation and ability were sufficient for me to successfully understand the lab.

- Strongly disagree     Disagree     Neutral     Agree     Strongly agree

3. The lab instructions were clear.

- Strongly disagree     Disagree     Neutral     Agree     Strongly agree

4. What was the level of difficulty of this lab?

- Very easy     Somewhat easy     Average     Somewhat difficult     Very difficult

5. What was your level of interest in the lab?

- Very low     Low     Average     High     Very high

6. Approximately, how many hours did you spend on the lab?

- ≤ 30 hours       31-50 hours       51-70 hours       71-90 hours       > 90 hours

7. The time I spent on the lab was worthwhile.

- Strongly disagree     Disagree     Neutral     Agree     Strongly agree

8. What was the most time consuming part of the lab?

9. The lab was a valuable part of this course.

- Strongly disagree     Disagree     Neutral     Agree     Strongly agree

Please turn to the next page.

10. As a result of the lab, I am more interested in computer security.  
 Strongly disagree    Disagree    Neutral    Agree    Strongly agree
11. Overall, I have attained the learning objectives of the lab (see the learning objectives on Page 1)  
 Strongly disagree    Disagree    Neutral    Agree    Strongly agree
12. I am  
 an undergraduate student    a graduate student
13. Which aspects of the lab were most valuable to your learning?
14. What problems did you encounter in completing the lab?
15. What changes could be made to the lab to enhance your learning?
16. What was the most important thing you learned from the lab experience?
17. If you have been interviewed for jobs in the past months, were recruiters interested in any of the labs you took in this class? If so, which one? (this includes all the labs you did for this course during this semester)
